Connie Rankin

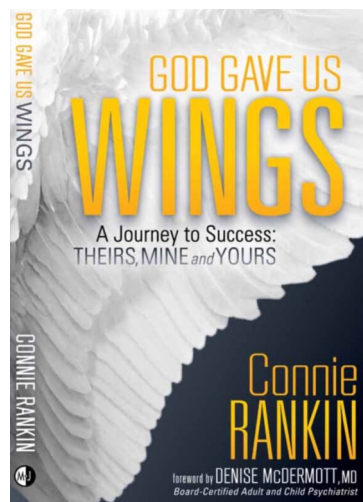

SPEAKER / AUTHOR / ENTREPRENEUR

Connie Rankin; the bestselling author of God Gave Us Wings- almost died at age five enduring a freak accident nearly severing off her right leg. After surviving eight-hours of surgery, she woke with a full leg cast, and thought it was a wooden leg!

Connie has become an expert in turning fear into faith by mustering up a seemingly supernatural inner strength that helped her overcome some horrific events. She believes without earth angels providing the proper guidance, at the appropriate time, she would not have survived surgery, the month-long stay in the hospital, or later being homeless, to becoming today's anomaly of success.
